POLYESTER FLEECE

ZIPPER CLOSURE

MATERIAL: Men's tactical/functional outdoor jacket is made of 100% polyester. The soft composite fleece fabric is thick and warm, no pilling or shrinkage. It's the good choice for autumn and winter coat needs.

KEEP WARM: This tactical/functional outdoor jacket has a high density of textiles which can prevent the cold wind entering inside. Warm fleece filled locks the body heat effectively and builds a perfect windbreak system.

FUNCTIONAL: Solid and smooth double zippers in the front; long sleeve with adjustable velcro cuffs.

MULTI-POCKETS: This tactical/functional outdoor jacket has a total of 9 pockets. 2 zipper side pockets, 2 zipper large interlinked pockets in the back, 3 inside pockets, 2 small zipper pockets on both sides of the arm for Mp3 or cell phone.

OCCASION: Suitable for tactical, hiking, hunting, climbing, mountaineering, camping, fishing, cycling, running, adventure, traveling, skiing, working and casual to wear.
